Subject: RE: Olin Drinking Water Sampling Schedule

Hello,

I spoke with _____ today and he gave permission for sampling of his well water by MACTEC and USEPA representatives for next week. He preferred that we do the sampling sooner than later, since he was hoping to shut off his outside spigot soon. _____ indicated the spigot (located in the bulkhead) was connected directly to his well and that is where we had sampled previously. _____ indicated that he did not need to be home for the sample collection. We are all set to sample the _____ residences on the afternoon of Tuesday November 10. We have the _____ residence scheduled for 1pm. We could sample the _____ residence immediately following.
